

THE BLAIRMORE ENTERPRISE

VOL. XVII, NO. 19.

THE BLAIRMORE ENTERPRISE, THURSDAY, MAY 13, 1926.

The factory of the Great West Garment Company, at Edmonton, was detached of the R.C.M.P., relieved wiped out by fire on Monday morning. The loss is around four hundred thousand dollars.

MRS. BAYNE, POPULAR ELDERLY LADY, HAS PASSED AWAY

The death of Mrs. Jane Bayne, widow of David Bayne, of Emmerson, Manitoba, occurred at the home of her daughter, Mrs. Mary Steeves, 531 18th Avenue West, Calgary, on Sunday, May 2, 1926. The remains were forwarded to Emmerson where burial will be made in the family plot.

Deceased was well known in Drumheller, having resided here for several years in her own home across the way. She was revered and loved by a large number of friends for her motherly manner and endearing way of treating all those she came in contact with. Her death must have been quite sudden, for she was talking to Drumheller friends in Calgary the day before and appeared to be in good health for one of her age.

She leaves to mourn her loss, one son and three daughters, James Bayne, farming in Saskatchewan, the eldest daughter, Mrs. Thomas Secord, in Dauphin, Manitoba; second daughter, Mrs. Thomas Madden, Lundbreck, Alberta, and Mrs. Mary Steeves, of Calgary.

Mrs. Bayne came to the 2-Bar Ranch in 1914, where her son Jack was foreman. She moved to Drumheller in 1918, where her daughter, Christine McLean, died of the flu, and the same week her son Jack died of the same dread disease in the Battle River district. From 1918 on, Mrs. Bayne lived in her home here, visiting her daughter in Calgary, from time to time, where she made her home for the past year or so.—Drumheller Mail.

CHURCH OF ENGLAND

St. Luke's, Blaimore, Sunday, May 16th—

9.45 a.m. — Holy Communion. Preacher, Rev. A. D. Currie, Rector of Strathmore, Alberta.

7 p.m.—Evangelism. Preacher, Mr. Hague, Lay Reader.

There will also be Church of England service at Bellevue on Sunday at 12 noon.

The Rev. H. Laurence Nobbs will be away from the Pass for about a week. He is occupying the pulpit of Strathmore on Sunday.

The Clergy of the Diocese will be at Lethbridge for a quiet day on Friday of this week. It is to be conducted by the Rev. Fr. Barnes, of the Community of the Resurrection, Mirfield.

A handsome dossal and canopy of beautiful hand-worked material has recently arrived as a gift from the Foreign Mission Association for use at St. Luke's church. It was used for the first time today (Thursday), Ascension Day. A great improvement in the sanctuary of this little church is noticed. There are still vacancies in the choir of St. Luke's church.

At the regular convention of Greenhill temple, Pythian Sisters, on Friday night last, Mrs. T. Baxter and Mrs. H. A. Garrison were each presented with a case of silverware. Mrs. Garrison left Sunday for Sand Point, Idaho, while Mrs. Baxter leaves this week to join her husband at Kimberley.

Very recently the B. P. O. Elks of Los Angeles opened and dedicated what is believed to be the finest lodge edifice in the world. Grand Exalted Ruler William Hawley Atwell, in a message extending congratulations to the Elks of Los Angeles stated: "There should be an interchange of congratulatory messages between the lodge and the nation at large. Both are a part of its magnificence and grandeur—an order that stands for home and country and the individual and that not only stands but fights for the trio is invaluable to itself and to the city and country with which it lives."

EXAMINATIONS FOR FIREBOSS

The examinations for fireboss, under the Mines Act, were held in Blaimore on Tuesday and Wednesday of this week.

The examiners were: Mr. Moses Johnson, Blaimore, and Mr. David Davidson, Coleman. Mr. Wm. Oakes was acting on behalf of the miners.

The following candidates presented themselves for examination:

Alec McKinnon, Coleman; John Longworth, Bellevue; Joe Kubic and B. Wiswell, Blaimore, and Wm. B. Rhodes, Lundbreck.

NOTICE TO GOLFERS

The members of the Blaimore Golf Club wishing to take part in the Crow's Nest Golf Tournament, to be held at Cranbrook, will kindly hand in their names to the secretary or post them at the club house.

The members of the club wishing to enter the mixed foursomes, to be held Wednesday afternoon next, the 19th, will kindly post their names at the club house.

M. H. CONGDON, Secretary.

DISTRICT FIRST

AID COMPETITIONS

The district First Aid competitions will be held at Coleman on July the first, on the sports grounds, if weather is favorable; if not, in the arena.

There is every indication of a most successful competition. Due to the most generous co-operation of those persons interested in First Aid work in the district, up to date eight senior and seven junior teams have entered. In addition to the three grand prizes to be awarded to the first, second and third successful teams, prizes will be awarded in the junior competition.

There will also be a dinner, and at night, at the close of the competition, a grand banquet for all competitors, officers, executive committee and others of the district association. The prizes will be presented at night in the arena.

Moses Johnson, president. David Davidson, vice-pres. Ed. Royle, secretary-treas.

Alberta Crow's Nest Pass First Aid Association, Blaimore, Alta.

P.O. Box 141 Phone 79

FIRST AID PRIZE DRAW

The first draw for the benefit of the Crow's Nest Pass First Aid Association will take place in public at a banquet to be given at Bellevue by the Bellevue local association on or about May 25th.

At the same time the First Aid certificates, issued by the St. John Ambulance Association, and the Industrial Service First Aid Association certificate, issued by the Workmen's Compensation Board of Alberta, will be presented to the successful candidates of this year's Bellevue and Blaimore First Aid Classes.

This will close the most successful winter's First Aid Classes in this part of the Pass, classes having been held at Hillcrest, Bellevue, Blaimore and Coleman, a total of 135 men and boys having passed for certificates.

Conductor Nathan Pushie, in the employ of the Canadian National Railways in the Maritime Provinces, has retired after fifty-two years of service. He was at one time a passenger train conductor in Newfoundland.

Mr. J. F. Galbraith, of the Canadian Bank of Commerce, Calgary, is to relieve Mr. W. L. Rippon as manager of the Coleman branch about the middle of May, when Mr. and Mrs. Rippon and family leave for a three months vacation to be spent in Saskatchewan and Ontario.

ASCHACHER-LEES

A quiet wedding was solemnized at the Holy Ghost church rectory, Coleman, by the Rev. Father McCormick on Saturday evening last, when Miss Mary Aschacher, winsome daughter of Mr. and Mrs. John Aschacher, of Blaimore, became the bride of Mr. Fred Lees, only son of Mr. and Mrs. Wm. Lees, Coleman.

Both of the contracting parties are very popular and highly regarded young people, and have the best wishes of a host of friends for a long and happy married life.

Mr. and Mrs. Lees will for the present reside at Blaimore—Coleman Journal, May 6.

Since an American has succeeded in reaching the north pole through the air, it is reasonable to expect a real estate boom at the pole and an influx of Americans there. But they are so accustomed to what is today called hot air that it may take some time to become climatized.

Although Roy Hogarth has been missing from Coleman for several months, we have not heard of any attempt being made to locate him. Roy served a term in jail only last year for attempted suicide. There is no knowing what punishment would be meted out by our authorities if it is found a man has been successful in the attempt.

STEVENSON, TRUSTEE

Owing to the resignation of Mr. David Morris from the board of school trustees of the Bellevue school district, an election for a new member was necessary, and took place on Wednesday.

Two nominees were in the running and the ballot showed the following results: Steve Humble, 230 votes; John Shevels, 46 votes.

Steve Humble, who is an old timer of Bellevue, was declared elected to fill the vacancy by a majority of 184 votes.

Dr. Olivier and Al. Dube left by motor Friday evening for southern and western points. They will likely be away about three weeks. Dr. Olivier's work is being looked after by Dr. Hynes.

Another cronic case of a man going unscathed through the whole war and dying of a seemingly insignificant happening has been revealed in the death of Major Yerbush. Only 33 years old, wealthy, married to the daughter of an English ambassador, he seemed to be one of the most fortunate young men in England. He had gone through the war without the slightest wound. A few weeks ago he was bitten on the leg by a mosquito, blood poisoning set in and within a few days he was dead.

When Pay Day Comes

THE first claim you should meet on pay day is your savings. In time of sickness or unemployment, your money is your best friend—if you have saved it.

There comes a time for all of us when ability to earn must cease. Your accumulated savings must then take the place of your present earning power.

Ask for a copy of our booklet, "The Measure of Your Income." You will find it useful.

The British Strike

The outstanding event of the week in which this article is written is the great strike in Great Britain affecting nearly five million workers and crippling all the public services of the country. This great national strike also serves to once again demonstrate how closely the interests and welfare of one country are bound up with other countries. The day the strike went into effect the price of wheat in Canada and the United States made a considerable drop, while values of many stocks fell on the New York and other markets. No longer does one nation live unto itself alone, and even its purely domestic troubles have an international and world effect.

The unsettled condition of the mining industry in Great Britain lies at the bottom of the strike, just as it has been the cause of more or less trouble for many years past, and until a permanent and satisfactory solution of the coal mining problem has been found it would appear that trouble must be expected. In the case of the present strike, precipitated by the miners' refusal to accept a reduction in wages and a lengthening in the hours of labor, which the mine owners insist is necessary if the industry itself is to survive, railway employees, printers, dock and transport workers, the building trades, iron and steel workers, and others organized under the Trades Union Congress, ceased work in sympathy with and to enforce the miners' demands.

It is difficult for the people in this country to fully grasp and understand the underlying causes of the discontent and financial difficulties existing in the British coal mining industry. Undoubtedly the war has had something to do with it, because there is not the same world-wide demand for British coal as existed prior to 1914, and furthermore, the depression in British industry owing to lack of orders from foreign markets following the war has likewise had its effect.

Competent observers from other countries find another cause for the trouble—a basic one. They insist that the whole system of coal-mining in the British Isles requires to be modernized, and that until this is done the business cannot be profitable to the mine owners, and consequently satisfactory wages and working conditions cannot be provided for the miners. To effect the changes necessary will call for the expenditure of enormous capital sums, and, for a time at least, a decrease in the number of men for whom employment can be found. This latter is undoubtedly the chief difficulty.

In other words, it is held that the present method of pick and shovel mining must be replaced by the utilization of machinery in the mines for the purpose of cutting the coal. This would mean fewer men employed, but as large or larger output of coal at a considerably less cost per ton, thereby assisting all British industry and enabling British coal to again compete successfully in the market of the world. At these experts are right, then, it would appear that the British coal industry and British miners must pass through the same experience as did the cotton industry following the advent of machinery, which caused a terrific upheaval at the time and much distress, but ultimately gave that industry its great supremacy.

Evidence is not lacking that the same process of modernization is necessary in other lines of British activity, the building trades for example. A group of United States experts connected with the real estate business to whom the writer has been referred, insist that it is necessary to put up a given structure in London that it would in New York, and, despite the much higher wages paid artisans in New York, the cost of the building is just as great in London as in New York. The reason is found in slow-moving workmen and out-of-date appliances. Two examples of the latter may be mentioned.

A huge modern steel structure is being erected in London on the site of Devonshire House in Regent Street. The hoisting of the big steel beams was being carried on by a group of men turning handles on an old-fashioned derrick, with the result that the beams moved upwards slowly by inches. On this side of the water a donkey engine would do the hoisting in a fraction of the time. On the site of another structure about six blocks away from the first, excavating for a foundation. In Canada and the United States a steam shovel would be on the job, and do it in short order and at much less cost.

British workmen and their Union leaders have yet apparently to learn the lesson that the introduction of the most modern methods are essential to their own progress and welfare. Lowered costs of output and production is necessary if British industry is to compete with the world, and such a reduction in costs would enormously increase the volume of production, thus providing, not less employment because of the use of machinery, but more employment, better wages and shorter hours because of the greater demand created through lowered costs and greater expedition in the completion of work.

Britain Would Aid U. S.

The British Government has a plan for assisting the United States to tighten its check over run running. The plan does not go as far as a new treaty, but according to official circles will take the form of permission for United States revenue cutters to visit the Bahamas and co-operate with British ships in carrying out searches for contraband liquor.

There was not one Turkish woman among the industrial workers of Constantinople four years ago, but now there are 20,000.

CHILDREN CRY FOR FLETCHER'S CASTORIA

MOTHERS: Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Purgative, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children of all ages.

Pilot Makes New Record

Flies Heavy Plane London to Paris in Ninety Minutes

Some idea of the astonishing progress in air travel can be had from the record recently made by Captain Mackintosh, an Imperial Airways pilot. The officer flew a big fifteen-seater, three-engined Handley-Page air liner from London to Paris in 90 minutes! The plane carried a full load of passengers and goods, and, freighted, weighed six tons.

The average speed of the flight of 250 miles was 154 miles an hour, a new record for a big passenger plane of this size.

The actual speed record between London and Paris is held by a four-seater Napier D. II. express plane, which made the flight in 87 minutes; which means that Captain Mackintosh with his giant passenger liner lacked only three minutes of the record set by the light "speed" machine.

Pains in Back Subdued Sore Chest Relieved

A Nova Scotian Tells How She Overcame Her Troubles With NERVILINE

"I consider Nerviline the best remedy for a cold, sore throat or richness across the chest," writes Mrs. Lucy Mosher from Windsor, N.S. "For many years our home has never been without Nerviline. I had a cold on my chest that fourteen remedies could not break up. I rubbed on Nerviline three times a day, used Nerviline as a gargle and was completely restored." It's because Nerviline is so powerful, so penetrating, so sure to relieve congestion, that it is used most heartily for the prevention and relief of a hundred minor ills. Get a 35c bottle to-day.

Has Patented Atom Engine

Idea May Develop Into Most Dramatic Achievement of Century

A Dutchman has recently received a patent for running an engine on power obtained from the atom. He has discovered that if mineral sands containing titanium are heated to a temperature of 1,700 degrees centigrade the atoms disintegrate, and an enormous amount of heat is generated. The sand is heated in a small electric furnace, and the heat caused by the sudden breaking-up of the atom is forced by a pump through tubes that heat the water in a boiler, and supply the power for a diesel engine. This patent has passed through the patent office almost unnoticed, but it is actually the first step toward the realization of the power from the atom, which all the world is waiting for. It may easily develop into the most dramatic achievement of the century.

Refuses To Hear Fortune

Prince Knows What Has Been Predicted For Him

There is a very remarkable Irish lady in London, now, who tells fortunes with such startling accuracy, that a friend of the Prince of Wales begged him to consult her as to his future. "No, no," said the Prince. "I've consulted this palmist and that time and again. They tell me always one of two things. That I'm to be killed in the hunting field or get married. I won't have my fortune told again."—London Mail.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Expeller will clear the stomach and intestines and restore healthfulness.

Farm Lands in Demand

A Revival of Buying of Farm Lands Has Set In

With farm land values just at the bottom and conditions improving, this season has brought a revival of buying in farm lands equal to that of 1918, said P. H. Harman, president of the Winnipeg Real Estate Exchange, recently.

"One company alone has been averaging sales of 20,000 acres of farm lands a month since last October," Mr. Harman said. "In each case the lands, mostly wild land for pasture and stock raising purposes, have been sold to bona fide farmers and not to speculators or investors. Substantial initial payments have been made and the buyers are meeting subsequent payments promptly. The biggest demand for land recently is in Saskatchewan and Southern Alberta."

A man will give a dollar for a 50-cent article that he wants. A woman will give 40 cents for a 50-cent article that she doesn't want.

John Philip Sousa was a teacher of music at the age of 15, and a conductor at 17.

Minard's Liniment King of Pain

W. N. U. 1928

Proves Mother Is

Your Closest Friend

Jersey City, Mr. J. Pault writes: "I awakened each morning with an unpleasant taste and was often reminded by my mother that my breath was disagreeable. I tried perfumed tablets, mouth washes and other remedies which gave temporary relief. After consulting my dentist and finding my teeth in good condition, a friend suggested my trouble was constipation. After taking a few doses of Carter's Little Liver Pills my stomach and bowels were relieved, foul and impure gases eliminated."

Druggists, 25 & 75c red packages.

Poiled By Youngest Aviator

Indianapolis Woman 104 Years Old Established New Record

Mrs. Mary Huffman, 104 years old, Indianapolis, set what was believed by local flying officials to be a world record for the age of persons riding in an aeroplane when she made a 15 minutes flight. She was piloted by Parum Parker, of Anderson, 16 years old, the world's youngest aviator. On the plane with Mrs. Huffman was her five-year-old great great grandson, Carol Davies.

Bishop Will Use Aeroplane

Able To Reach Points In Haiti Otherwise Inaccessible

Missionary enterprise is shown in the announcement that Bishop Harry Carson, of the Protestant Episcopal diocese of Haiti, is to fly from parish to parish in fulfilling his duties, naval authorities having issued orders which permit the bishop to make use of naval aeroplanes in visiting the islands otherwise inaccessible.

COMFORT DEPENDS ON GOOD DIGESTION

Weak Stomachs Can Be Made Strong Through the Use of Dr. Williams' Pink Pills

The sufferer from indigestion is greatly to be pitied. This trouble assumes various forms such as pain after eating, gas on the stomach, sour stomach and often vomiting after food. The sufferer cannot get food to eat, and is reduced to a starvation basis. That only artificial food can be used is a sad condition. Better digestion, not a poorer diet. And the way to get a better digestion is to take the pills that the stomach will do the work nature intended. As a tonic for building up the blood and strength, these pills are equal to Dr. Williams' Pink Pills. As this new blood course through the veins strength and tone is given, indigestion and the pains of indigestion disappear. Not only this, the whole system is strengthened and new life and vim comes to the former sufferer. The value of Dr. Williams' Pink Pills in cases of this kind is proved by the following indication. "I could not eat meat or potatoes, and often could not retain the food I did eat. Only a few days ago I had been afflicted with this trouble, and realized the suffering I endured. I took a lot of doctor's medicine, but it did not give me more than temporary relief. I also took other remedies recommended with no better results. Then I read in a newspaper the case of a woman whose symptoms were like my own. When I found her health through Dr. Williams' Pink Pills. I at once got a supply of these pills and had not taken them very long when I began to feel relief. This encouraged me to continue the use of the pills, and I can but say that they did for me by saying that they made me feel like a new man. Every trace of the trouble has disappeared and I can now eat and enjoy my meals as well as anyone."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The woman who is continually lecturing her husband either considers him a fool or else she has forgotten that a word to the wise is sufficient.

Charles Darwin, in his boyhood, was accounted a dunce by his teachers.

The Hudson Bay Route

Dominion of Canada Pledged to Carry Work to Completion

The fact is, of course, that every government in Canada for nearly forty years has advocated and furthered the Hudson Bay route, and four successive prime ministers, two of them Liberals and two of them Conservatives, have, while in office, seen great sums expended on the enterprise.

The railway has, at great expenditure by successive governments, been carried to within seventy or eighty miles of Hudson bay—and awaits completion. It is to be completed, as it should be, and as public men of each and all parties assured the people of the west. It would be the talk in West Middlesex and elsewhere in Ontario and Quebec about the completion of this enterprise being a steal, a waste, a bribe, is quite dishonest.

The acoustics of the Dominion are very good, much better than many parlans suppose. What is said in the west and is said in the east, politically, is overheard all across the Dominion with a distinctness that leaves nothing to be desired. The improved hearing of the country, when everybody knows about it, will make for straighter talk in politics.—Toronto Star.

Growth Of Wheat Pool

Chairman of Spillers Says Spread of Pool in Alberta Cause of Retardment

Addressing the annual meeting in London of Spillers' Milling and Associated Industries, Chairman M. Haker stated that the wheat pool in Alberta had grown to an amazing way, so that it now represented between 70 and 80 per cent of the wheat acreage of the province. Through its increasing magnitude and greater control both of the flow and marketing of wheat, the pool's bargaining power in regard to services rendered by the line elevator had grown. The result had reduced Spillers' interest in the line and terminal elevators to simply that of an investment. Therefore, it was decided to retire from that section, although the milling programme remains unchanged.

Submarine Kills Whale

Conquers Big Whale in Firm Marine Battle

In its first battle of the kind known the giant submarine V-1 met and conquered a monster whale.

When the submarine was a few miles out of Provincetown, Mass., it emerged at a depth of about 10 feet, a heavy ray shook the vessel. When it came to the top, officers and men hurried on deck and found a 50-foot whale, its back broken, wrapped around the bow. The whale was put out of its misery with a single shot from the submarine's gun. The submarine suffered no damage from the collision.

Miller's Worm Powders can do no injury to the most delicate child. A child, or infant in the state of adolescence, who is infested with worms can take this preparation without a quiver of the stomach, and will find in it a sure relief and a full protection from catch in the bowels, which are responsible for much sickness and great suffering to legions of little ones.

Chinese Add To Industries

Workmen Use Animal Bone For Making Many Articles

The Chinese have added to their industries by the use, they make of bones, allowing very few, if any, animal bones to go to waste. The large section of the back leg of the cow is used for making many things, and Chinese workmen, despite their extensive use of imported material, maintain that the life from the native bone is superior, lasting longer than that from the imported product. Of the ribs bones, only the upper part of the front three pairs from the cow and ox is used in making handles for knives, forks, and similar articles. These three pairs are white and clean when properly treated, while the remainder are usually cartilaginous, or defective in grain. The third section of the rear bone in the sheep leg is used to make cigarette holders and pipe stems, and this bone, it is said, is the only one from the sheep which can be used in the manufacture of other things besides fertilizer. Chinese pipes of this bone are extensively used in certain parts of the country.

Use Minard's Liniment in the Stables

The telephone cable recently completed from New York to Chicago—361 miles—is the longest in the world. It cost \$25,000,000.

The Eskimo has never been a long-lived race. The average lifetime is 50 years.

Minard's Liniment for Burns

For Quick Hot Water

Fill an S.M.P. Enamelled Tea Kettle. Set it on the stove. No Kettle will boil water quicker. That means convenience, time saved, too. All S.M.P. Enamelled kettles are very fast coming to the boil and in their job of cooking. Not only quicker to cook with, but easier, more quickly cleaned after. The best way you look at it. Think this over.

S.M.P. Enamelled TEA KETTLES Save Fuel

Borden's ST. CHARLES EVAPORATED MILK

The choice of good cooks—for they want good milk and can always depend on it. Use it wherever the recipe calls for milk.

WABOB VACUUM PACKED COFFEE

Angle For Plunder The Chinese thief uses a hook and line fastened to the end of a long bamboo to angle through upper windows for anything the hook can catch. It is not unusual for the occupant of a hotel bedroom to find, on waking, that all his clothes have gone, and with them, of course, anything he happened to have left in his pockets overnight.

Mrs. J. W. Thrush

Hamilton, Ont.—"For over three years I suffered with severe nervous headaches. When I would get these spells I would have to give up and go to bed. They would occur about every two weeks. I tried everything I heard of but got no relief until I began taking Dr. Pierce's Favorite Prescription and the 'Pleasant Pellets.' By the time I had taken two bottles I found a wonderful improvement, and four bottles overcame the trouble. I have never since suffered from headaches of any sort."—Mrs. J. W. Thrush, 41 Margaret St.

Go to your neighborhood drug store at once and obtain this Prescription in tablets or liquid, or send 10 cents to Dr. Pierce's Laboratory in Bridgeport, Ont., for trial package.

TRADE SUFFERS IN BRITISH ISLES THROUGH STRIKE

London.—The British Gazette, the government's newspaper, contains an official government communiqué, declaring that trade and industry throughout the entire country is suffering previous injury through the general strike.

Equally throughout the country vital services, food, milk, light and power, are being successfully maintained by the government and every obstacle is being progressively surmounted, "although," it adds, "arduous and possibly prolonged efforts will be required from all loyal citizens."

"There is no doubt whatever of the result," the communiqué continues. "No serious disorders have occurred, abundant food transport is available, but picketing is interfering with distribution. The special police are being increased steadily, and protection on a growing and wider scale will be afforded daily."

"The navy has rendered prompt and effective civil assistance at several ports, but no use of display of armed force has been required, and the public is advised to disregard rumors, such as the report of an airplane having been shot down, and that mail has suspended payment, and that mutinies have occurred among His Majesty's forces." Such reports are wholly untrue, their circulation is a criminal offense.

More Compensation

Rural Postmasters May Soon Receive Higher Pay
Ottawa.—Answering a question in the House of Commons respecting compensation for rural postmasters after the introduction of the two-cent stamp on July 1, Hon. Ernest Lapointe, minister of justice, said that it was realized that the adoption of the two-cent letter rate on July 1, next will result in a substantial decrease in the revenue of rural post offices. As rural postmasters are paid on a commission basis, there would be a corresponding decrease in their salaries.

"The question of an upward revision of the rates of compensation of rural postmasters will receive appropriate consideration by those who are charged with the duty of fixing the rates," he added.

Vessels Liable To Customs

Those Delivering Canadian Winter Storage Cargoes At U. S. Ports Come Under Tariff

Ottawa.—There is apparently some misapprehension, it was stated here as to the position of the United States delivering Canadian winter storage cargoes at United States ports. These vessels are liable to a 25 per cent. customs duty not by virtue of an order-in-council, but under the customs tariff which can only be amended by act of parliament. Under a provision of the Canada Shipping Act, however, the government may, by order-in-council, permit foreign vessels loaded with winter storage grain to discharge at a Canadian port in the spring. Such an order has been passed for several years.

Embargo Lifted

London.—After holding up the appearance of the British Worker, the labor paper, issued in answer to the government's British Gazette, police permitted its appearance from the office of the Daily Herald, the regular labor newspaper. The embargo was lifted after a sample copy had been inspected.

Saklatava Is Jailed

London.—Shapurji Saklatava, the late Communist member of parliament, was sentenced to two months' imprisonment here for making seditious speeches. He was given the alternative of providing sureties to keep the peace, but chose the prison sentence.

Beat Warden To Death

Joliet, Ill.—Deputy Warden Klein, of the Stateville Penitentiary, was beaten to death by seven convicts in a prison break here, the first escape from the great central modern prison. The convicts escaped in an automobile after leaving Klein in a cell.

It is just fifty years since John D. Rockefeller combined all his companies into one, and called it the Standard Oil Company.

A water power plant on White River, Indiana, is controlled automatically by float switches, and requires no attendance.

W. N. U. 1628

Is Standing Firm

Premier Baldwin of Great Britain, who enjoin the nation to keep steady in the present crisis.

Slaves In Burma

Freely By Britain

Deputy Commissioner Bernard Secures Liberty of Over Three Thousand
Allahabad, British India.—After several months spent in the wilds of Burma, stamping out slave trading and negotiating with the Nagas for the abolition of human sacrifice, Deputy Commissioner J. T. O. Bernard, of the Burma frontier service, has arrived in Calcutta.

Bernard tells a most interesting story of his activities. The number of slaves set free at a cost of 19,000 rupees was 3,446, which did not come up to the exaggerated expectations which had been entertained.

There were no limitations, however, to the gratitude and unimagined joy of the Kachins, who were emancipated through the act of the "great white chief," Sir Herbert, governor of Burma.

In an area of 2,000 square miles are 25,000 people hankering after human sacrifice. Evidence was found of this practice and also of the care taken to prepare the victims. Usually he is placed in a kind of stock pen and fed and watered like an animal for two months before being sacrificed.

Illicit Gold Traffic

Alarming Mine Owners

Mines In South Africa Lacked of Large Amounts

Capetown.—Some remarkable revelations regarding the extent of illicit gold traffic have been made in South Africa recently. The conspiracy is centered in the heart of the gold mining industry to Johannesburg, but its ramifications extend to England and India. It is estimated that some £350,000 worth of gold is dealt with illicitly each year.

The gold is, for the first place, placed in the many mines that lie along the Witwatersrand. It is not an easy matter to steal gold from a gold mine. Like the diamond industry, there is a constant supervision. Yet gold continues to disappear from the mines and the extent of illicit gold buying is shown by the number of convictions in the Johannesburg courts each year.

The mining authorities, aware of these constant losses of gold, are puzzled to account for them.

Table Came From England

Berlin.—The English table upon which Emperor William signed the mobilization order, Aug. 1, 1914, for the commencement of the world war, is now on display to visitors in the imperial castle here. The table, which came from England many years before as a gift, was made out of boards from Admiral Nelson's flagship.

Dirigible Leaves For Spitzbergen

Leningrad, Russia.—The Amundsen-Elsworth North Pole dirigible Norge, left Tromsø on another stage of its voyage to Spitzbergen. Light weather conditions from Spitzbergen, sent by Captain Roald Amundsen, leader of the expedition, appear to be favorable for the flight to King's Bay.

Orders American's Release

Rome.—An investigation magistrate ordered the immediate release of John Adams Abbott, member of a prominent Boston family who has been held in jail here for the last week. The charge that he had insulted Premier Mussolini was shown to be unfounded.

Plane Super-Dirigible

Pasadena, Calif.—Thomas B. Slaton, inventor of fast improvement for aircraft, announced here that he had signed a contract with the government to construct a super-dirigible capable of making a non-stop flight to the North Pole and return in seven days.

Sane Government Or Anarchy

Daily Mail Says British People Will Not Submit to Obedience Tyranny

London.—The Daily Mail says there are now two governments in Great Britain. One the law government representing 40,000,000 persons, and the other "an unconstitutional, revolutionary government" representing 2,600,000 trade unionists.

The paper declares that one of these governments must go. "We are not going to see J. H. Thomas and Ramsay MacDonald imitating the work of Lenin and Trotsky here," the Daily Mail says of the Labor leaders. "Nor will the British people—who are entirely different from the pathetic, submissive munks of Russia—submit to such an odious tyranny."

Monument For Great Explorer

Douglas Fir Trees Planted Near Captain Vancouver's Grave In England

London.—In the old parish churchyard of Peterham, Surrey, the Hon. F. A. Paine, agent-general for British Columbia, assisted by J. S. Corbett, secretary of the Empire Forestry Association, has planted near Captain Vancouver's grave a number of young Douglas fir trees grown in Kew Gardens from seeds sent by the natives of British Columbia, as a lasting memorial to the great explorer.

NO PEACE UNTIL STRIKE ORDER IS WITHDRAWN

London.—The general strike is a challenge to parliament and is the road to anarchy and ruin," the British prime minister, Stanley Baldwin, thus characterized the vast Labor movement in support of the miners' strike, in a message printed by the official government press, The British Gazette.

"He calls upon all good citizens to stand behind the government," to preserve the liberties and privileges of the people of the British Isles."

In the House of Commons the prime minister made the unequivocal declaration that the strike order must be withdrawn before the government would "resume negotiations" for industrial peace.

At the same session of the commons, Sir William Joyce-Hicks, the home secretary, intimated that troops would be employed, if necessary, to maintain services of vital importance. In setting forth the situation to the press, the government's spokesman at the admiralty declared that the nation was meeting the crisis quietly and calmly, with food and fuel supplies guaranteed for many weeks; an official of the Trades Union Congress at Eccleston Square, Labor headquarters, announced that the railway tie-up was the most complete in the history of Great Britain, and that the striking men and their women-folk were standing solidly together for the cause of Labor.

The Sky Line of New York

As seen from the deck of the Canadian Pacific flagship Empress of Scotland after she had docked there April 10, completing an 125-day voyage around the world, commencing December 3rd. Many unique spectacles were witnessed by passengers including an eclipse of the sun at Bonanza which scared off millions of birds into the sacred waters of the Ganges in the hope of avoiding the destruction of the world; and a human sacrifice when a Hindu youth committed suicide on the altar of the goddess Kali in her temple at Calcutta. The Sultan of Johore, a Malay Peninsula State, introduced some of the lady passengers to his harem. Seven honeymooners took the trip and their example was so contagious that 27 couples had become engaged to be married at the termination of the world cruise.

H. B. RAILROAD QUESTION COMES BEFORE SENATE

Ottawa.—When the interim supply bill of one twelfth was presented in the senate by Hon. Raoul Dandurand, Senator W. R. Ross, opposition leader, drew attention to the item of \$3,000,000 for the Hudson's Bay Railway in the estimates. He said the senate had not been informed what use was to be made of this money. Whether the Hudson's Bay Railway was to be part of the Canadian National Railway or an independent system operated by the government. He would also like to know where this \$3,000,000 was to be expended and how.

Senator Dandurand said there were 90 miles of road to be completed. The Hudson's Bay Railway was at present, a part of the Canadian National system, but was administered and controlled by the railways department. The minister of railways had asked the Canadian National system to supervise the completion of the work. The interim supply voted would be used for maintenance and repairs on that portion of the road on which rails had been laid. In voting money for the Hudson's Bay Railway the government was carrying out the policy of all governments of recent years. He expected the work would be proceeded with diligently until completed.

Requisition Cafe For Amusement Of Soldiers

Magistrate Restaurant Now Used By British Army On Rhine

London.—The Wallalla at Wiesbaden, one of the most luxurious restaurants in Germany, has been taken over by the Navy, Army and Air Force institute for the benefit of the army of occupation on the Rhine.

"A magnificent restaurant on the ground floor, where wealthy Germans once ate expensive meals, is now used only by British soldiers and their wives, and a large theatre on the first floor has been converted into a moving picture theatre and lecture hall."

"We wanted to take over this building because the facilities for the amusement of the troops in Wiesbaden were limited," said Lt. H. Church, assistant general manager of the N.A.A.F.I. "There was great delay on account of financial reasons, but now the place has been requisitioned by the war department."

"There has been considerable opposition in Germany, however, and many newspapers have declared that we have violated the spirit of Locarno."

Alberta Air Patrol

Ottawa.—J. C. Cook, Conservative, McCleod, asked the minister of the interior in the house if the air force patrol in Alberta was to be carried on this year. Hon. Charles Stewart replied that arrangement would be made and the service carried on would be continued this year.

Figures In British Strike

A. J. Cook, General Secretary of the Miners' Union, who has taken a prominent part in the strike movement.

Suggests Nation-Wide Celebration

Senate Urges Fitting Recognition of Sixtieth Anniversary of Confederation

Ottawa.—The senate adopted a resolution that "it is expedient that preparations be made for the celebration of the sixtieth anniversary of the Confederation of the Province of Canada."

Senator Lewis, who proposed the resolution, believed the celebration should be made nation-wide, and should not be confined solely to Dominion Day.

The anniversary celebration, he declared, should be made a feature of all celebrations of every character throughout the year.

Senator Raoul Dandurand, government leader, thought that advantage should be taken of the sixtieth anniversary of confederation to bring before our people the master of our national growth and achievements.

Death Of Forestry Expert

A. H. Mitchell Was Well Known For Work Done in Western Canada

Jedburgh.—A special to The Herald from Macleod says that A. H. Mitchell, aged 68, well known forestry expert, died at Penitence, B.C., following three months' illness from "knee" trouble. Mr. Mitchell, who came to Macleod from Scotland in 1895, was widely known over the prairies, having travelled with the Dominion forestry branch tree planting, car for a number of years. He was a true enthusiast. His father was chief forester to Lord Rosebery.

BRITISH CABINET URGED TO MAKE CONCESSIONS

London.—In the House of Commons, former premier Lord George, joined the Laborites in deploring the precipitancy shown in breaking off negotiations, which he characterized as a grave error. Ramsay MacDonald begged the cabinet not to remain adamant, but to make some concession in order to get the government and the Trades Union Congress around the conference table.

For the first time the debate brought out how slight a touch was needed to reverse the thread of negotiations and send the sword of a general strike crashing on the heads of the British people. It was the "over act" of a few printers in the Daily Mail plant, who, acting without authority, the union representatives, disagreed with an editorial and stopped the machinery of the paper, preventing its publication.

Ramsay MacDonald, in a further effort to bring the government and the Trades Union Congress together again, said that after receiving the government's final communication the Trades Union Congress and miners sent a committee from their room to the prime minister's room to discuss the situation. When the committee arrived, Mr. MacDonald declared dramatically, they found the door locked and the room in darkness.

In consequence of this disclosure, members of the House of Commons repeatedly demanded to know the terms of the formula mentioned, and whether the miners had accepted it since the breakdown, but information on this point was not forthcoming. The Laborite, James Maxton, Glasgow, stated that the strike had been precipitated because the dignity of a great newspaper proprietor should be injured. It was disgraceful that the whole nation's services should be stopped and that millions should suffer because of this.

NATIONAL FUEL POLICY IS NEEDED FOR DOMINION

Ottawa.—Premier King moved in the House of Commons that the special committee recently appointed to investigate the present sources of supply of anthracite and bituminous coal and other matters in relation thereto be composed of the following members: Meares, Armstrong, East Lambton, Bury, Campbell, Fafard, Fleming, Garland (Bow River), Gershaw, Howden, Lacombe, McLean (Melfort), Nicholson and Ross.

The motion carried without division. T. L. Church, Conservative, Toronto, Northwest, stated he could not see any legitimate reason for the appointment of this committee. The responsibility for the solution of this whole question was upon the government. There was a probability of a strike in the anthracite fields of the United States, and immediate action and an announcement of the government's policy should be made. He believed in a national fuel policy for Canada.

Hon. Charles Stewart, minister of the interior, felt that the committee might bring to light some cheaper method of transportation of coal. It might be possible to transship Alberta coal at the head of the lakes from railways to ships. The committee's operations would have nothing to do with the actual supply.

Premier King rose to state briefly that so far as the government was concerned it was only implementing the wishes of the member for East Lambton, J. E. Armstrong, Conservative, who had expressed the opinion in the House that such a committee was needed. A special committee had been appointed to study the whole question.

Hon. R. B. Bennett suggested the motion be amended to confine the activities of the committee to a study of freight rates, and distribution. A previous committee had done considerable preliminary work and the ground it covered should not be gone over again.

Plan Most Northerly

Mounted Police Post

Effects Being Made To Place One Within Ten Degrees of Pole

Toronto.—A determined effort is to be made to land three Royal Canadian Mounted Policemen on the Bach Peninsula, which is latitude 73, only 10 degrees from the North Pole, according to George P. Mackenzie, officer in charge of Arctic expedition this year. If successful this will be the most northerly R.C.M.P. post, and will be the farthest north which Canada has ever extended her administrative officers.

If Bach Peninsula can be reached these three mounted policemen will represent all branches of the Dominion Government. They will open and conduct a post office, act as mining recorders, if necessary, will act as game wardens and will take applications for naturalization if any are made.

Budget To Stand

No Substantial Changes Are Contemplated By The Government

Ottawa.—No substantial changes will be made in the budget. Hon. J. A. Robb so informed Rt. Hon. Arthur Meighen in the House of Commons in answer to persistent questions on the subject.

The leader of the opposition said he had reports of a character which he could not ignore that changes in the budget were contemplated. The minister of finance hinted that if representations sufficiently strong were made in committee stage some slight modifications might be accepted. But no important changes were under consideration.

Regina C.P.R. Hotel Approved

Montreal.—The city of Regina is to have a new \$1,500,000 hotel. At the 45th annual meeting of Canadian Pacific Railway shareholders here, approval was given in an agreement between the Regina civic authorities and the company for the erection of the structure.

Ship Canadian Cattle

Toronto.—Cattle boats are leaving Canada for England with regularity, unaffected by the British general strike and the Canadian export trade in livestock generally is not expected to be affected, in the opinion of H. P. Kennedy, large shipper of livestock.

Yukon Free of Ice

Dawson, Y.T.—The ice has moved out of the Yukon River at Dawson and steamers are expected from lower Lebarge shortly.

Blairmore, Alta., Thurs., May 13, 1926

NORMAL STUDENTS TAKE PLEDGE TO ASK \$1,000 SALARY FOR TEACHING

At a mass meeting of the students of the Normal school held Monday afternoon a resolution by unanimous vote was passed pledging themselves not to apply for any schools at a salary less than \$1,000 a year.

The meeting was held for the purpose of discussing employment with J. W. Bainbridge, secretary of the Alberta Teachers' Alliance. The object was to put a stop to the readmission of teachers at the end of the term.

As the end of the Normal term there is generally an over-supply of teachers for a few weeks, which in past years has had a bad effect upon the teaching profession. It was decided that the students should be divided into four groups: First, students who intend not to proceed with teaching; second, students who are willing to hold off from teaching until October 1st; third, students who were willing to hold off until September; fourth, students who wanted positions at once.

There was some criticism by students of the department for advertising recently for teachers in British Columbia to take charge of Alberta schools. The students believed this was unfair, as students desiring positions would be qualified at an earlier date. The students of the Normal school will graduate on June 4—Calgary Herald.

KILLING NOT MURDER IN THE UNITED STATES

Murder used to be a terrible thing. People shuddered at it. Human life was thought to be something precious, sacred. But that is old-fashioned. We have found so many excuses for killing that it will soon be on a plane with fly-swatting—Chicago Tribune.

President Coolidge recently said: "There is no use disputing the fact that as a nation our attitude toward the prevention and punishment of crime needs more serious attention. I read the other day a survey which showed that, in proportion to population, we have eight times as many homicides as Great Britain and five times as many as France. Murder rarely goes unpunished in Britain or France; here the reverse is true. The same survey reports many times as many burglaries in parts of America as in all England; and whereas a very high per cent of burglars in England are caught and punished, in parts of our country only a very low per cent are finally punished."

The reason for the difference is easily seen. In Great Britain, capital punishment checks murders, for the criminal knows he will hang if he commits murder.

THE GOOD OLD DAYS

Speaking of the good old days—how is this?

Recently, in going through the papers in an old desk, a merchant found a circular, from which we copy: "We will pay you on track at your station up to next Friday's statement—fresh eggs 5¢ cents per dozen, case count; fresh butter 8¢ cents per lb." The circular came from a firm in Fremont, Nebraska, and was dated July 9, 1898.

Teacher: "Johnny, I'm only punishing you because I love you."

Johnny: "I wish I was big enough to return your love."

An Artist's View of the Rockies

Cathedral Mountain, from the Yoho Valley

Leonard Richmond, R.P.A., R.O.I., the well known British artist, is among the latest to succumb to the lure of singing the praises of the Canadian Pacific Rockies. In April, a magazine of the arts, Mr. Richmond writes of the Rocky Mountains as one of the most magnificent sights of the world.

Towards the end of March 1925, the artist made his first journey into the heart of Canada. He writes, "As the train advanced from Calgary, the 'Footpaths' of the Rockies gradually emerged in view, suggesting the appearance of a busy guard, or sentinals, guarding the sterner mountains beyond."

"It is not expedient or desirable for me to describe in detail the emotional ascending scale that my feelings experienced as the train approached the actual Rockies themselves. It is enough to state that my highest imaginative thoughts had never visualized so much impressive force and dignity as those austere mountains conveyed that late afternoon in March."

"The general color on that particular afternoon was monochromatic in effect. I have not seen any Japanese woodcut print that equalled the superb draughtsmanship of the finely designed groups of pine trees which were almost black in tint, contrasted sharply against the virgin snow."

The mountains of Canada's rugged

many forms of expression for artists. In that respect they are probably unique. The intellectually endowed modern painter has scope enough to create works of art based on the innumerable suggestions of dynamic force, grim tragedies of form caused by ancient volcanic eruptions and occult feelings, too, can be awakened by close contact and communion with the soul of the mountains.

"It is impossible for any artist to sketch more than a fraction of such a vast area of varied subjects. Once the artist is situated right in the mountains there is no occasion to seek for subjects or to walk any distance for desirable views. There is something interesting to paint from any angle."

"Some of the most interesting pictures that I have seen recently of the Rockies are those where the artist has improved in colour and form on the original theme in nature. By this means Nature can be made to look more natural in a picture and the artist's thoughts can be crystallized into positive expression."

Mr. Richmond, who painted a number of beautiful views, states that although Lakes Louise, O'Hara, Moraine, and Emerald are famous in the lake world of Canada, he was struck off by the smaller lakes, Lake Mirror and Lake Agnes, known as the "Lakes in the Clouds," above Louise.

Here and There

During the twelve months, ending October 31st, 1925, Canada exported to 53 countries and colonies 52,903 cars valued at \$25,165,869 and also auto parts worth \$2,573,875. Auto mobile exports during the corresponding period 1925-24 totalled 45,194 cars valued at \$23,109,331.

A total of 18,281 acres was planted to tobacco in Ontario in 1925, yielding 20,625,000 pounds according to figures issued by the Federal Government. In 1924, 12,372 acres were planted, yielding 12,135,000 pounds. In 1925 the average yield per acre was 1,130 pounds as compared with 914 pounds per acre last year.

Branch offices of Japanese flour mills are to be established in Winnipeg soon, it is understood, so as to be in a good position to buy wheat. Two representatives of the Misin Tor Mills and Mitsui Grain Company, of Tokyo, were in Winnipeg recently making arrangements for the purchase of 150,000 tons of wheat for the two firms.

Ernest Ralph, a Toronto architect, has claims to the discovery of the first fossilized remains of eggs of prehistoric reptiles. He found them in a deep cutting between Lethbridge and MacLeod in the shape of about 16 perfectly round stones. The eggs measure 2½ inches in diameter and are now being investigated by Professor Parks of Toronto.

In order to create a better understanding of the game, an all-star team of English badminton champions arrived in Saint John, N.B., recently and made a tour right across the Dominion, exclusively on Canadian Pacific lines, playing exhibition games in the largest cities. Sir George Thomas, Bart., is captain of the team which sails for home on December 30.

M. B. Bates, who operates a chain of camps in the Metagans district of Ontario, reported to the tourist department of the Canadian Pacific Railway that the record for the 1925 season was fourteen moose, two deer and one bear, taken by ten parties of fall hunters totalling 22 persons. Most of the visitors were satisfied as 75 per cent of them made reservations for next year.

A prize of \$1,000 weekly, offered by a Chicago publication for a deed of bravery, comes to Canada for the first time. J. B. Partridge, fireman on the Canadian Pacific Railway, on the run between Calgary, Alta., and Field, B.C., is to receive the reward for saving the lives of five men who were in danger from a huge rock and mud slide on the Field Hill, August 21st last.

Here and There

Claims staked in the Red Lake gold mining field are keeping the recorder's office busy. Prospectors are of the belief that the area from Red Lake to the Manitoba boundary is promising and already many square miles of territory west of Red Lake has been staked.

During the eleven months ending February 28, the ordinary revenue of the Dominion was \$337,898,449 or an increase of twenty-nine millions over the sum of \$308,094,207 for the corresponding period of the previous year. Ordinary expenditure is about the same as a year ago. On February 28 last it totalled \$275,929,417.

Archibald Geo, the good-natured chef on the Canadian Pacific liner Empress of Asia, superintended the trans-Pacific voyage of 50,000 Canadian fish eggs from Vancouver to Kobe. The shipment necessitated extremely careful handling. The eggs were packed in ice and had to be kept at an even temperature during the entire voyage.

Lord Allenby, conqueror of Palestine, was greeted by huge crowds on his arrival in Montreal in March. The leaders of the local militia were on hand to do homage to the famous general who placed a wreath on the monument to Canada's fallen soldiers in the Windsor Station. Viscount Allenby also spoke at the St. Denis Theatre.

The Dominion Experimental Farms system announces the introduction of a new and valuable variety of field peas which may mean to the field peas that Marquis has meant to the growers of wheat in the west. The new variety is a selection from a cross made at Ottawa between Muntony and Black Eye Marrowfat varieties.

Canadian roses grown at Brantford, Ontario, and sent to Sir George McLaren Brown, European general manager of the Canadian Pacific Railway, stationed in London, scored a decided hit with Londoners. Large crowds gathered to see the Canadian blooms which were on display in the windows of the offices of the Canadian Pacific Railway in Trafalgar Square.

Christmas holiday passenger traffic to the British Isles was especially heavy this season on Canadian Pacific Railway lines. Over 1,500 passed over these lines in the last two weeks of November, while others arrived later in time to get the S.S. "Albatross" and the S.S. "Metagana" which sailed from Saint John, N.B., on December 10 and 11. Westerners all seem to be in very good financial circumstances owing to the good crops the past season.

MATHEMATIC PROBLEM SOLVED

The following item appeared in our last issue:

"The head of a fish is three feet long, the body is equal to the length of the head, plus the length of the tail, and the tail is equal to the length of the head, plus half the length of the body, and George Passmore is worrying himself sick to find the length of the fish. He says it is worse than finding out how old was Edna. If you can help him out, in his mathematical difficulty he will appreciate it."

A Lethbridge friend comes to the rescue of George with the following solution by algebra:

Let x equal the length of tail; y the length of body. Then 3 plus x plus y equals length of fish. Then 3 plus x equals length of body. Then 3 plus y equals length of tail. Then 3 plus x plus y equals 3 plus 3 plus x plus 3 plus y, or y equals 3 plus 3 plus y/2, or y minus y/2 equals 3 plus 3, or 1/2 y equals 6, or y equals 12, length of body. Now, then, the tail equals length of head (3 feet) and half the body (6 feet), makes tail 9 feet, head 3 feet, body 12 feet; in all the length of the fish is 24 feet.

Stealing a few minutes from her domestic duties, an Ontario housewife has figured out that she washed three cups of dishes in a year, prepared five thousand meals and sweeps 150 acres of floor space. The leisure time between these tasks was filled in with cooking, laundry work, house cleaning, and a few other chores.

NOTICE TO CREDITORS AND CLAIMANTS

IS THE ESTATE OF EMIL DY. POLT, late of Frank, in the Province of Alberta, Merchant, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above, named Emil Dy. Polt, who died on or about the 17th day of April, 1926, are required to file with Messrs. Gillis & Mackenzie, Blairmore, Alberta, the undersigned solicitors for the Executor, by the 1st day of May, 1926, a full statement duly verified of their claims and of any securities held by them, and that after that date the Executor will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed, or which have been brought to her knowledge.

DATED at Blairmore, Alberta, this 29th day of April, A.D. 1926.
Solicitors for Annie Dy. Polt, 420-51 Executive.

COWLEY HAPPENINGS

Mrs. Lionel Peel was a week-end visitor to Calgary.

Extensive repair work is being done to the village sidewalks.

Preparations are under way for a fousling celebration on Victoria Day.

Miss Jean McEwen has gone to Banff, where she intends spending the summer.

Mrs. Christie left on Thursday night for Calgary, where she will spend a few days.

Mother's Day will be observed here on Sunday next with a special service in the Union church.

Several of the local folk attended the dance at Lundbreck, which was put on by the Lundbreck Women's Institute.

G. B. Woods' travelling crew passed through town with their trucks on Saturday, on their way to Calgary and Strathmore.

Though indications all point to a rainy spell, it continues to hold off. Seeding is practically completed and rain would be very welcome.

Emil Franz, while on his way home from school last Tuesday, fell from his horse and broke his collar bone. He is progressing favorably.

The Crows' Nest Pass Coal Company sent a number of horses down from Fernie last week end for summer pasturage.

The recent visit of the Forestry Association tree-planting car was much appreciated. Contrary to report, this car will finish its tour of Alberta points, after a three-weeks' visit to British Columbia on special duty.

FOR MEMENTO TO LADY BYNG

Government House, Edmonton,
May 8th, 1926.

Dear Madam:

A committee has been formed in eastern Canada for the purpose of raising a fund, from Canadian women, with which to purchase some mementos to be presented to Lady Byng prior to her departure for England.

I have been asked to take charge of the collecting of the fund in the province of Alberta.

All subscriptions, however small, will be greatly appreciated, but it is suggested that the maximum subscription be limited to one dollar.

I will be glad to receive any monies the members of your organization may wish to subscribe. Any monies collected have to be in Ottawa early in June so it will be necessary for subscriptions to reach Government House not later than the end of this month.

This appeal is being sent to all women's organizations in the province and it is hoped that Alberta will not fall behind the sister provinces.

Yours very truly,
EVA C. ROBERT.

Dropheller Elks have this year undertaken to introduce the Conklin & Garrett All-Canadian Shows.

Placed on trial for the third time on a charge of murdering Miss Mildred Neilson, a nurse at the Trail, B. C. hospital, on February the 6th, 1923, Pat Hanley, Trail insurance man, was found guilty by a jury and sentenced to be hanged on August 2nd next.

Road superintendent H. L. Hayne, of Fernie, has received positive word that the government has decided to build the Corbin road next year. This will be good news for the people of that little mining town, who are cooped up almost as though they were in jail. Corbin is about the only town of its size in Canada without a motor vehicle.

Son—Can you sign your name with your eyes shut, daddy?
Father—Certainly.
Son—Well, shut your eyes and sign my school report.

Here and There

According to official figures issued by the Redemptorist Fathers about 800,000 pilgrims visited the famous Ste. Anne de Beaupre shrine during the season of 1925. Thirty-nine countries were represented. Of the number mentioned, 145,000 came by car and the remainder by train.

Seven Americans, touring the world on the Canadian Pacific liner "Empress of Scotland," welcomed the New Year from the top of the Great Pyramid in Egypt. Four young ladies and three men lifted their party camped on the sands of the Sahara and climbed the pyramid, "for a little excitement."

Two new steamship lines have made Halifax a port of call this year and during the first six months of the year the increase in ship tonnage was over one million tons. For the ten months of 1925 the increase in ship tonnage, compared with the same period last year was over 1,500,000.

Canada's exports to Soviet Russia have increased three hundred fold during the past twelve months. Trade figures available show that in the twelve months ending October 31, Canada exported goods valued at \$14,000,000 to Russia, as compared to \$43,000 for the preceding twelve months.

Four international sporting events are to be held at Quebec in February. There will be the snow-shoe races, in which 3,000 will take part, including 1,000 men coming from the State of Maine; a hockey match between the Sons of Ireland and the Dartmouth College team; the Hubert Curling Bonspiel; and the International Dog Sled Derby.

George Rollin, yard agent at Place Viger Station, Montreal, retired under pension arrangements on January 1, 1926, after forty-six years of service with the C.P.R. He entered the employ of the Company as messenger at Hochelaga, now called Place Viger Station, on April 24, 1879. J. A. S. Racicot has been appointed to fill Mr. Rollin's position.

Four students from British Universities, comprising the British Imperial Debating Team, are now in Canada meeting a number of Canadian university and college debating teams in a worthy battle on the merits of "The Geneva Protocol and the League of Nations," "The Degeneracy of Western Civilization," and "The Singapore Base."

Gross earnings of the Canadian Pacific Railway during 1925 amounted to \$183,850,000, as compared with \$183,502,156 in 1924, while working expenses last year totalled \$143,201,230 as compared with \$145,274,914 in 1924, leaving a balance, after deduction of fixed charges, of \$39,215,250 for 1925, as compared with \$22,666,955 in 1924.

In an interview in Montreal recently, E. W. Beatty, president and chairman of the Canadian Pacific Railway, said that the National Conference of Education, scheduled for April, would be of incalculable importance for the future of the Canadian people. Mr. Beatty is chairman of the Montreal Committee which undertook the organization and financing of the Conference.

Count Thun Hohnstein, one of the wealthiest men in Czech-Slovakia, who arrived on the Canadian Pacific liner Montcalm recently, is to purchase a large tract of land around Calgary. Count Hohnstein, owner of large properties in Czech-Slovakia, is well versed in scientific farming and came to Canada to verify reports concerning the great possibilities which await the right type of settler.

A party of twenty-five school-boys arrived at Montreal in March, under an arrangement between the Macdonald Agricultural College, Ste. Anne de Bellevue, and the Canadian Pacific Railway. At the college the boys receive a short training in the rudiments of Canadian farm methods and are placed in suitable positions on farms in the spring. An experienced supervisor devotes his entire energy to see that the boys are well taken care of.

"I met our new minister on the way to Sunday School, Mamma," said Will, "and he asked me if I played marbles on Sunday."

"What did you answer?" asked the mother.

"I just said: 'Get thee behind me, Satan,' and walked off and left him," was the triumphant response.

CANADA HANKS

HIGH AT CONGRESS

His Excellency Massignor Pietro di Marini, apostolic delegate to Canada, will head the delegation from the Dominion to the Eucharistic congress to be held in Chicago June 20th to 24th.

Canada's position at the Eucharistic congress will be very high, according to Kathar Primeau, who also states that the contribution of the Dominion delegates and other matters would be second only to that of the United States. In proportion to population, Canada's representation will probably be the largest of any country in the world. Already the Canadian National Railways have arranged charters for twenty special trains.

In addition to the numerous parties from eastern Canada, at least four from the west, accompanied by Archbishop Mathew, of Regina, Bishop Bellevue, of St. Boniface, Bishop Prud'homme and Mgr. Brodeur, of Prince Albert, Bishop Charbonnel, of The Pas, and Rev. Abbott Ott, of Muenster, Sask., will make the trip in special trains over the Canadian National lines.

Another unique party will be the delegation from Alaska under the leadership of Bishop Crimont, of Juneau, which will assemble at Skagway, Wrangell and Juneau and move by Canadian National steamships to Prince Rupert, where they will board special cars which will carry them to Chicago via the National route.

ASK YOURSELF

Am I hitched up right, or am I a round peg in a square hole?

Do I feel every drop of blood and every fibre in me, tugging away at my ambition, saying "Amen" to my work?

Am I keeping myself fit to do the biggest thing possible to me every day of my life?

Am I working along the lines of my talent, or am I getting my living by my weakness instead of my strength?

Am I strengthening my weak points, making my strong points stronger and eliminating the things which are keeping me back, the enemies of my success?

Do I decide things quickly, finally, or am I forever on the fence, fearing to make definite decisions which I cannot reconsider?

Have I the initiative which begins things without being told to; which does things without waiting for others' instructions?

Do I dare attempt the thing I instinctively feel capable of doing, and I know that I ought to do?

Have I the courage which dares to branch out in an original way, dares to make mistakes that may humiliate me if I should not happen to succeed?

Scott's Wife (meeting husband at railway station): "What, ya lookin' for, Angus? Ye ha'na lost any o' yer luggage, ha' ye?"

Angus: "Aye—Ah canno' find a newspaper ah found in the train."

Greater Quality at Lower Cost

"I'm a little stiff from tennis," explained a local clerk to his employer the other day.

Employer—"I don't care where you're from. Get to work!"

Walter: "And how did you find the steak, sir?"

Customer: "Oh, I just moved that little piece of potato and there it was."

A green brakeman on a Colorado railway was making his first trip up the Pass. They were going up a very steep grade, and with unusual difficulty the engineer succeeded in reaching the top. At the station, looking out of his cab, the engineer saw the new brakeman and said with a sigh of relief: "I tell you what, my lad, we had a job to get up here, didn't we?"

"We certainly did," said the new man, "and if I hadn't put on the brakes we'd have slipped back!"

WORLD HAPPENINGS BRIEFLY TOLD

During last year 1,152 drunken motorists were deprived of their licenses in the state of New Jersey.

Sir Sifton Branker, British civil aviation head, says he plans a landing stage at Galtway for trans-Atlantic aeroplanes.

New Zealand's export of apples last year reached the record total of 600,000 cases, with ample left for home market.

Coffins, containing two mummified horses, the first ever discovered in Egypt, have been found in the pyramids of Sakkara, south of Cairo.

Geological surveys in British Columbia have cost the federal treasury \$1,171,410 since 1871. In the last four fiscal years it has averaged from \$55,000 to \$60,000.

Aerial traffic between the United States and Canada may soon be directed through "air gates" designated by mutual agreement of the two governments.

The possibility of the creation of a Hebrew rite in the Roman Catholic church which would mean recognition of the Zionist nation is declared by the Glendale Ephraim to be under discussion in ecclesiastical circles.

Dutter importers have been notified by the customs department that they must pay six cents a pound duty on all butter they have imported to Canada from Australia since January 1 of this year.

Up to the end of March last 6,560 persons had been accepted in Great Britain for migration to Canada and 2,656 had actually sailed for the Dominion under the Canadian assisted passage scheme.

The owners of black opals are extremely lucky people at present, contrary to the accepted superstition, for the value of these gems is rising as they become more and more scarce. The mines in Australia which produce them are giving out and no new sources have been discovered.

No Written Examinations

Pupils in B.C. School To Be Promoted On Basis Of Year's Work

Pupils attending British Columbia public schools will be promoted to the high schools this summer under entirely new regulations. It was announced at the department of education. Under a system to be inaugurated by Hon. J. D. McLean, minister of education, the practice of promoting pupils on the basis of their work during the entire school year instead of depending upon written examinations will be extended greatly in its scope. At the same time, however, Dr. Maclean is inaugurating new regulations designed to safeguard those promotions and prevent the advancement of unworthy pupils.

HEADACHE!

Bathe the head with Minard's in water. Also heat and ruble Minard's.

W. N. U. 1623

Gopher Poisons

By V. W. Jackson, Professor of Biology, Manitoba Agricultural College.

All gopher poisons contain strychnine, they differ only in amount and mixture. The movement standard is 12 grains of strychnine sulphate per half ounce or 2.5 per cent, or about 42 grams of strychnine to a gallon of water to treat as much grain as will soak it up. Strychnine has two forms—the natural alkaloid and the sulphate crystals, which are more soluble but less poisonous, so that it takes 5 ounces of the sulphate to be equal to 4 ounces of the alkaloid—the sulphate is more commonly used because cheaper and more soluble. But gopher poison must be made attractive and alluring with sweetness and aroma.

The North Dakota mixture contains glycerine, saccharine, molasses and baking soda. The Canada mixture depends upon vinegar for its flavor and aroma. Other mixtures use lard oil for flavor and aroma—all good in their way, all effective in proportion to the strychnine present.

The North Dakota mixture is the most popular homemade one, and made as follows for quarter-section, section, or municipality.

For 1/4 Section Section Municipal.
20 qts. oats 3 bus. or 300 bus.
100 quarts

1 oz. strychnine 5 ozs. 32 lbs.
1 oz. baking soda 5 ozs. 32 lbs.
1 oz. starch 5 ozs. 32 lbs.
1 pt. molasses 1/4 pt. 16 gal.
1 lb. glycerine 3/4 oz. 22 lbs.
1/2 oz. saccharine 1/2 oz. 62 1/2 ozs.
Labor 30 mins. 30 mins. 60 hrs.

Probably cost \$2 for 1,200 gopher holes or average quarter section. Approximately \$5.00 for 6,000 gopher holes, average section. 600,000 gopher holes, 100 sections (all municipality), \$600.00.

Make a pint of hot starch-paste first and slowly add the strychnine and soda powder and stir so it will not ball over. Then add the molasses, glycerine and saccharine and stir well. Then pour the warm mixture over 20 quarts of clean oats. Costs about 2c for 10 gopher holes and saves bushels of grain and a bumper field, if done in time (April and May).

Lord Grey's Sight Restored

Threatened Danger of Total Blindness Has Been Averted
His innumerable admirers of every political color will rejoice to hear that the threatened danger of total blindness which drove Lord Grey of Faldoon out of public life some time ago, is averted. By carefully carrying out the orders of his oculist, his falling sight has been saved. No longer does this bookworm have to depend on the services of a reader—he can read for himself. Indeed, it is no secret that he is now revising the proofs of a book which he has finished and which will be published shortly—London Mail.

Each Mark Has Meaning
Every mark on a twig has a meaning in the life of a tree, says Nature Magazine. The tiny dots scattered here-or-there on the twig are its breathing pores. Day and night, winter and summer, the tree breathes in oxygen and gives off carbon dioxide. The great work of spring and summer requires much additional breathing space which the leaves furnish.

New Heat Resisting Metal
Titanium, a new metal for use in electrical work where great resistance to heat and acids is required, is said to last 1,600 times longer than platinum and is one-twentieth as cheap.

Don't delude yourself with the idea that there is a good-looking woman in the world who doesn't know it.

As we understand it, a dangerous reduction in the tax levy is one suggested by the minority.

One sign of greatness is to have a signature nobody can read.

"DIAMOND DYES" COLOR THINGS NEW

Just Dip To Tint or Boil to Dye

Everything! Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

A Softly-Flaring Yet Slender Silhouette

The styling of printed silk on tailored lines is a venture in its expression that is meeting with the approval of the modish woman. Cut with front fastening from neck to hem in an unbroken line, this clever frock presents a slenderizing silhouette altogether flattering to the woman of larger proportions. The upper part of the frock molds the figure to the hip-line, where it springs into a graceful flare at the sides and back, the front being perfectly flat. A long tie of contrasting color material is wrapped about the throat, but the collar is adjustable and may be worn open with the ties hanging in front. The long sleeves in sleeves are trimmed with tailored cuffs matching the material of the pointed patch pocket and the collar. Size 123 is in sizes 28, 40, 42, 44, 46 and 48 inches bust. Size 40 but requires 4 yards 38-inch figured and 2 1/2 yard plain material. Price 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every dress maker. Price of the book 19 cents the copy.

ON THE AIR

What is Doing in the World of Radio

It is said that the radio industry is still in its infancy. Perhaps that is why it keeps so many people up late at night.

London soon will have a theatre in which plays will be staged for broadcasting and not for audiences present in person. A test was made recently in Covent Garden Opera House where an opera was performed and broadcast without stage settings or costumes.

The Bible service bureau has been incorporated at Columbus, Ohio to give to the world daily a message from the Word of God by radio. The service has been offered free to 185 broadcasting stations in the United States and 33 stations in Canada.

Legislation to regulate rates charged radio stations for broadcasting copyright music was urged at a session of the house and senate patent committees, Washington. Some stations pay as high as \$25,000 a year to the Composers' Association.

Effective May 5, CNR, the Winnipeg broadcasting station of the Canadian National Railways, will operate on a summer schedule starting at 8:30 with the holiday story, followed by market reports at 9:50 and the studio programme at 9 p.m. This will also apply to CNRR, Regina.

Tuning a radio set requires experience and familiarity with a set. Many purchasers are discouraged when they get the radio story and have difficulty receiving stations and bringing in programmes clearly. It is an art to get the utmost efficiency out of a set with the least amount of power.

The question arises the merits of broadcasting dance music for dance purposes. The Canadian agreement that radio for-profit is better appreciated when listened to, rather than stepped to. Something in the microphone transition mars the tempo and distorts the perfect dance rhythm. Sometimes it is static, but on ideal reception evenings it is purely a matter of technical deficiency.

"Incidents comprising a radio set have among them all travelled 250,000 miles between their places of origin and the factory where they are finally assembled," says "the book." "In one standard receiving set are two thousand different parts, emitting the tubes. Each of the seven tubes has thirty-two parts. Some of these materials are domestic, many are foreign. No nation, no continent, supplies them all."

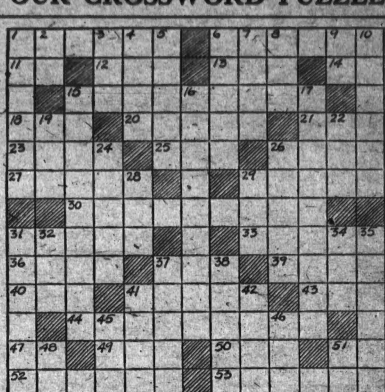

Radio owners who become uneasy during thunderstorms have little reason to fear, because lightning has not exhibited any special fondness for antennae. So advise engineers of the Underwriters' Laboratories, where daily war is waged against hazard through the testing of hundreds of devices to determine whether they are safe to use. All the tests, many of which appear ridiculous, are made with the knowledge that when amateur experiment anything may happen."

Ontario Has World's Gold Deposits
A mining expert says that within two years Ontario will be the great gold producing area in the world, outdistancing the Rand, although the latter leads at present owing to cheaper labor. Ontario has the gold deposits of the world in its back garden with an annual production at present of nearly \$20,000,000.

Was Oldest Mason In West
Andrew E. Rea, believed to have been the oldest Mason in Western Canada, is dead. He was 96 years old and had lived in the district for 40 years. Mr. Rea who was born in Kingston, Ont., was a Master Mason for 49 years.

"Come and dine with me tomorrow evening, old man."
"Afraid I can't; I'm going to see Hamlet."
"Never mind, bring him along too."

OUR CROSSWORD PUZZLE

- Horizontal
- 1—A relish of vegetables or fruit (pl.).
 - 6—The mouth of a volcano.
 - 11—That thing.
 - 12—A green vegetable.
 - 13—Assist.
 - 14—That man.
 - 15—A man versed in the art of government.
 - 18—A beverage.
 - 20—Erase.
 - 21—Before.
 - 22—Sinful.
 - 23—Sulfate.
 - 24—Not odd.
 - 25—To leave again.
 - 26—Unsuitable.
 - 30—One who eats beef.
 - 31—In the fore part of a vessel.
 - 32—Nickname.
 - 33—Oceans.
 - 37—Nine and one.
- Vertical
- 1—A relative.
 - 2—Near.
 - 3—Sulfate.
 - 4—Deprived or destitute of life.
 - 5—Cardinal.
 - 6—Covered with a case.
 - 7—Borders.
 - 8—Girl's name.
 - 9—An expression of inquiry or slight surprise.

SUNDAY SCHOOL LESSON

MAY 16

ABRAHAM AND THE STRANGERS

Golden Text: All the nations of the earth shall be blessed in Him. Genesis 18:18.

Lesson: Genesis 18:1-19, 16-19. Devotional Reading: Psalm 123.

Explanations and Comments

Abraham Entertains Angels Unaware, verses 1-8.—"And Jehovah appeared unto Abraham" as he sat at his tent entrance at noon in Hebron; the first verse says, and the second speaks of "three men" appearing suddenly on the scene. Because of verses twenty-two and thirty-three, we must understand that the story includes among the three men, Jehovah himself. "There are passages in the Bible in which manifestations of God are described which seem to imply that he was confined within the limitations of space, or that the human form really was proper to him. He is said to have walked in the garden in the cool of the day; to have come down to see the town which men had built; to have been one of three men who appeared to Abraham, and to have eaten that which was set before him. Under these passages there lies not only a vivid conception of his personality, but a vivid conception of a profound and more strictly redemptive truth, namely: that he reveals himself and enters into the closest friendship with men" (Dr. A. B. Davidson).

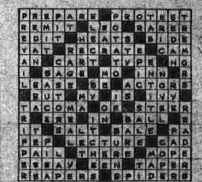

Life On Mars Quite Probable

Prof. C. A. Chant, of the University of Toronto, told the convention of the Ontario Educational Association that the existence of life on the planet Mars was more than a possibility, according to conclusions drawn from observations made in 1924 when the planet approached close to the earth.

Clock Does Trick

The town clock of West Chester, Pa., every day at noon casts a baseball from the top of the tower and the person who finds it receives 10 cents from the merchant whose name it carries. A rescorator carries enough balls for three weeks.

Answer to Last Week's Puzzle

Invents New Auto Alarm

Works By Toothed Wheel and Cannot Be Blended By Thief

A new auto alarm has been devised by a Philadelphia inventor. When a thief undertakes to steal a car protected by this alarm, a loud chattering starts up that can be heard for several blocks, and that gives the thief the surprise of his life. It can be silenced neither by the key nor by the disconnected wires, for it works by a toothed wheel on the engine shaft.

Her Heart Palpitated

She Had Fainting Spells

Mrs. J. Wilson, Port George, N.S., writes: "I suffered from palpitation of the heart and fainting spells, and at times, I could not be left alone I was so nervous."

My trouble was caused from overwork and worry, having been left alone with a large family.

I had tried everything, without any relief, but I know, today, that I would have been a nervous wreck but for your wonderful

Items of Local and General Interest

Many a man wears his hat over the weak end.

Mr. E. D. Battum, auditor, came down from Calgary on Monday morning.

A whole Rank family of five were killed in an auto crash in Detroit on Saturday.

Mr. G. G. Henderson and party of lady friends motored down from Fernie on Tuesday.

Every now and then someone we haven't missed comes up and tells us he is back again.

Rev. Dr. Robert Johnson has resigned the pastorate of Grace Presbyterian church at Calgary.

S. P. Hunter has been presented with a veteran's jewel by Pincher Creek Lodge of the I.O.O.F.

Blairmore Tuxis footballers won from Coleman on Friday evening last by a score of two to nothing.

What some people need is vaccination against smalltownitis. If it doesn't take on the arm we get it in the neck.

Mr. Sterling, provincial manager for the Canadian Oils, Limited, was down from Calgary the early part of the week.

John T. Stirling, of the provincial department of mines, was in town on Tuesday, attending the examination for certificates.

Mrs. Davis Martin and daughter Margaret left the early part of the week to visit Mrs. Martin's former home in Scotland.

Mrs. Brearey, scales inspector for the C.P.R.; also Mr. Gibson, scales inspector for the Dominion government, are in the district for a few days in connection with their work.

The St. John river was still frozen over at Fredericton on May the 6th. If we were the St. John river we would run away to a warmer climate for the winter.

The new, tippie and washery plant of the International mine, Coleman, is almost completed and expects to be put in operation in the course of the next few weeks.

A woman of Camden, N.J., secured a divorce because her husband had not kissed her for two years. She was too impatient. Maybe he hadn't gotten around to her.

The party who took the hose and spray from the garden of Mr. M. Johnson's house on Sunday night last is asked to kindly return same to avoid being prosecuted.

A Scotchman was hammering a few nails into a barrow on Sunday. "Sandy," said his wife, "it's very wrong to make such a noise on the Sabbath. You ought to use screws."

The executive council of the Trades Union Congress has declined to receive financial assistance from the Russian red international federation for aid in conducting the general strike in Great Britain.

A young lady on the back street was buying a hammock the other day. "About what size, Miss?" queried Snood. "Big enough for one, but strong enough for two," she answered without turning a hair.

A compositor in setting up the toast, "Woman, without her, man would be a savage," put the comma in the wrong place, making the sentence read: "Woman, without her, man would be a savage."

The date for the preliminary hearing of Frank Wright, former secretary-treasurer, on charges of defalcation, has been set to some time next week the delay being occasioned through the absence of counsel.

A good motto for a doctor—patients and long suffering.

Mr. K. G. Craig is now sporting a new McLaughlin Buick Sedan.

Drumheller's municipal assessment this year amounts to \$1,041,797.

The regular meeting of the town council will take place on Monday night next.

Mothers' Day was appropriately observed in the local churches on Sunday last.

Ask Danny Lewis what a horse looks like upside down. There's a chance he knows.

And pretty soon you will have to look twice to see whether they are flies or currants.

Do you know that fifty per cent of the married people of the United States are women?

The police may be doing their duty, but we never hear of them arresting a Scotchman for being light.

The Oshawa Reformer remarks: Dear Lady—The art of making up is to look natural, not to look made up.

It took an American Byrd to fly over the north pole. This up to some Englishman now to locate his northern nest.

The ladies of St. Anne's church will hold a lawn party on or about the 16th of June. Watch for later announcements.

Mrs. (Const.) Moseley has returned from Seattle, where she had been called owing to the illness of her aunt, Mrs. Henderson.

In the Mormon tabernacle at Salt Lake City you can hear a pin drop, but in some of our churches you can't hear a pin drop.

Drumheller's assessment this year will be much in excess of last year's. The school board's requirements call for \$700,000 more than last year.

Fred Antrobus, son of Mr. W. Antrobus, of Coleman, has successfully passed the degree of bachelor of science and arts at Alberta University.

Some of our dam plans have been temporarily set aside owing to the beautifying of our town and streets occupying so much attention from the council.

Girls, don't put all your faith in the man who forgets to remove the cigars from his waistcoat pocket before he hugs you. He may be just showing off.

The deaths occurred at Bayhead, Colchester County, Nova Scotia, on April 26th and 29th, of Mr. and Mrs. James Johnson, both in their eighty-second year.

Don't forget the whist drive and dance to be held in the Lodge Hall next Wednesday, May 19th, by the Pythian Sisters. The usual good prizes, supper and music. Everybody welcome.

It was reported in Toronto recently that free gold had been discovered on the Howey Red Lake syndicate claims in the Red Lake district, as a result of diamond drilling operations at the 500-foot level.

Kent Foster, an old practical miner, of Coleman, died on Monday of this week as a result of injuries received through an accident on Friday of last week while following his employment at the McGillivray mine, Coleman.

Mr. Foster was caught under a fall of coal. An inquest was held on Tuesday night, the jury returning a verdict of accidental death. Funeral was held yesterday afternoon, interment taking place in Coleman cemetery, arrangements being carried out by the Masonic Order, the members of which attended in a body.

Mrs. J. Angus McDonald has returned from a visit to Calgary.

Dieticians and historians will parley over the rice and fall of China.

WANTED TO BORROW—\$1000 on excellent security at 8 per cent interest. Apply to J. G. Ewan, Cobble Hill, E.C. [m13-2]

Miss Eleanor Farmer, who has been attending university, is home for a holiday.

If practice makes perfect, the older a woman is the better she should carry her age.

Fred Dunkley arrived here from California last week end on a visit to his brother Lewis.
